RE: Banfield v. Banfield

Dear Dr. Weinstein:

Your assistance in this case is most appreciated. It was wonderful to have someone known for his advocacy of father's rights, to be an expert for a mother who was alienated from her children. Not only do we appreciate your willingness to get involved in this case, but your willingness to jump right in and do whatever it took at any given time. When we needed reports on short notice, you were able to prepare reports on such short notice. When we needed testimony, you made yourself available for testimony. You were more than willing to give input into strategy so that we would have a cohesive presentation. Your involvement of other experts extremely experienced in their sub-specialties, we believe is not only helpful with respect to the outcome of the hearing, but will prove to be helpful to the individuals in this family.

Your testimony was excellent and we were able to just sit back during the cross-examination. Quite obviously, no points were scored by the other side during the cross-examination. You did not let the cross-examiner get the better of you, and you certainly did not give the other side any material to use against our case. To the contrary, you were able to further drive home some key points during the cross-examination.

Your assistance in this matter is most appreciated, and we certainly intend to request your assistance and expertise in our cases in the future.

Very truly yours,

Josephine B. Iandoli
