

10-21-13

Dr. Monty Weinstein,

My family thanks you for the time and dedication to the cause of getting Weld County in Colorado to understand our struggles. I have been suffering for the past 7 years desperately trying to get the court to recognize the alienation that was devastating my relationship with my children, me, and family.

In April of 2012 at the culmination of my worst fears, my oldest son gave in to the pressure of the alienation and refused to see me any further perpetrated by my ex-wife. As weeks turned into months of not seeing my oldest son, the younger two children began to follow suite from the venomous alienation.

Motions began to be filed by their mother to stop my parenting time. Filing a contempt that was denied, I became desperate knowing the court hasn't and wouldn't see things for what they were for I have tried in the past. As so many times before, I began to search on the internet for someone who would have the expertise needed to help me with what has seemed to be a never ending battle to maintain a relationship with my three children. It was only God that could have led me to such a seasoned individual in the matters that had plagued us from past until present.

I came upon your name Dr. Monty Weinstein on Google. I began to read your website and realized that no man had the vast knowledge you have acquired through the long road of re-unification of children to mothers and fathers over 50 years. No one could know better if my children were truly alienated better than you.

I actually prayed before I sent the email to you Dr. Monty thinking, "This guy won't have the time for me, if he does respond it will probably be a secretary a month to late and I will be seeing my children in supervised visitation". I received a call from you directly within hours of my email.

When you entered my case in May of 2012 my oldest son was refusing to see me and the younger two were in the process of doing the same. You were literally there for 72 hours and witness to the alienating behavior of my ex-wife and how it was affecting my children. 24 hours after you left and the filing of your first report I had my son back who I hadn't seen in 3 months and we were off on a much needed vacation thanks you Dr. Monty.

Dr. Monty has come to visit my family many times. Through his excellent reports that cut to the chase, and his unsurpassable ability to testify against all odds/scrutiny along with the rut that the local court was in; you have truly improved my situation empowering me to continue in the relationship with my children. There has been a 180 degree turn in the courts view of my ex-wife who is a Doctor of Veterinary Medicine. For the first time the court has a grasp on who this woman truly is and what her goal has been in the destruction of my relationship with my kids. Thanks to you Dr. Monty I have been able to start to normalize a relationship with my children and an enormous pressure has been relieved from my children, me, and family.

The most amazing thing I have found about you Dr. Monty is your love and commitment toward the re-unification of children and their parents. There aren't enough words that can be said for someone who will sacrifice so much of himself including his own time with his family to help others in need.

Dr. Monty these are some of the words that describe you that led to the end result of my case for now: Determined, experienced, knowledgeable, affective, persistent, unmovable, faithful, professional, connected and most of all unequivocal. These are qualities that you brought forth in my case and so many others. It is my hopes that other professionals will step up to your level in this country and world and do great things as you have for you set the bar.

Your friend and most Sincerely,

Derek Stegner
