Rave Reviews for Dr. Monty's book!

Dr. Monty Weinstein

In an increasingly complex and Stressful World there is a pressing need for wisdom and guidance regarding how to tackle the demands of parenting and stressful family relationships. Dr. Monty explains why we need to move beyond the stigma that still makes progress difficult, and sometimes impossible. What makes this book really powerful is Dr. Monty's personal story he tells albeit not a comfortable one, but it's an important one. The bottom line is this: if you're human, I recommend that you read this book. Thanks Dr. Monty for shining a light , where there is darkness, we need more people like you to make the World a Better Place!!!

Miriam Schwimmer, Brooklyn, New York

From Amazon

This quick but enriching read can and will capture the reader within the first chapter, one will not want to put this book down. It does not matter if you are a fan of biographies/memoirs, or simple psychology this will be the read for you. The book does a fascinating job of not only recanting the challenging, but successful life of Dr. Monty Weinstein but allows the reader to still have faith in the "American Dream." That even through adversity one can still make a successful push to the top of society even though many odds are stacked against them. However, a major factor of this book for those that show an interest in the study of psychology, is that it brings to life and challenges the idea of Nature v. Nurture. It also shines a major light on what many individuals, (parents especially) tend to overlook and fail to see in society. That particular oversight being that each parent's choice (occupation, actions, thought process, etc.) can drastically influence and shape the emotional and cognitive development of their children. This book was a blast to read and opens up many different avenues of thinking. Definitely worth the read.

CT Jarrett

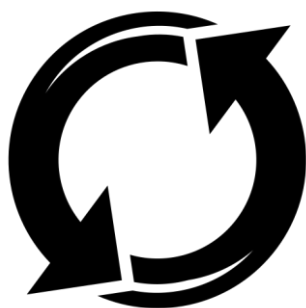

SPECIAL THANK YOU!

You are behind the scenes helping parents without the benefit of publicity or reward. You stand up for those whose rights are being trampled on. You have helped countless parents and children. We know who you are and appreciate you.

Thank you Sonny B. Southerland Sr. and Gary Jacobs!

Have you been helped by the NPRA?
Maybe it's time for YOU to help OTHERS

In order for us to continue our work we need people to renew their NPRA membership. We would appreciate your donations so that we can continue to assist parents who do not have the means to continue the battle of fighting for their children.

Please be aware that the battle is not over!

Please show your support by sending your donation to
