Dear Dr. Monty,

I want to thank you for your expert service in the case of State of Georgia v. R. L. Your experience and expertise were invaluable regarding the testimony of the State's witnesses and opinions you were able to form therefrom. I know some of the Court's evidentiary rulings regarding the subjects of Parental Alienation and Parental Alienation Syndrome, subjects for which you were initially retained as an expert witness, were not in our favor but your ability to take those rulings and still provide valuable insight and testimony in the case was greatly appreciated.

I also want to thank you from a personal standpoint as to your flexibility in complying with the Court's schedule. You left early from a family vacation to make sure that R. would not have a trial without you being present. You traveled from New York two more times for a hearing and for the final trial in this case. Your being willing to make those trips shows how far you are willing to go to support a case in which you believe.

The next time you are down in Georgia for one of your many other cases I hope you will give me a call so we can stay in touch.

Very truly yours,

Clinton W. Teston
